## FOG FREE SHOWER MIRROR

**Showertek's** Deluxe Clear View™ Fog Free Shower Mirror delivers the goods with a patented system that stays fog-free

forever. Unlike similar products that fight fog with a coating that comes off as soon as you spritz them with a household cleaner to remove water spots and scum buildup, Showertek's mirror uses basic principles of physics to prevent fogging by warming the mirror surface in a manner similar to a windshield defroster. Result: 20/20 visibility of every last whisker.
